Processors are commissioned by us to process your data for us within the scope prescribed by law for this purpose. This applies to data processing both by the above-mentioned companies within our corporate group and by processors outside the corporate group.

External processors and partner companies or other cooperation partners will receive your data only if it is necessary, e.g. to perform a contract, to process your order or to run a sweepstake.

As a basic principle, we only use processors outside the European Union if (i) there is an adequacy decision of the European Commission for the third country in question, or (ii) we apply the standard contractual clauses of the European Commission, or (iii) there are appropriate guarantees with the third country or (iv) we have agreed binding internal data protection rules with the processor.

As our organisational structure is that of a corporate group, in addition to data processing on behalf of the individual companies within our corporate group, data may also be processed by joint controllers. For this reason, in addition to a Commissioned Data Processing Agreement, a Joint Controller Agreement has been concluded, the main content of which is set out below. We comply with our information obligations under data protection law by means of this Privacy Statement.

The Controllers are jointly required to ensure that the technical and organisational measures necessary for legally compliant data processing and for the protection of the rights of data subjects are implemented; these measures also ensure the security of processing as required by law within the meaning of Art. 32 of the General Data Protection Regulation (GDPR). Each joint controller is required to ensure that its employees observe confidentiality and act in accordance with the rights and obligations set out in the Joint Controller Agreement. The controller that is closest (under the internal organisational structure) to the data processing in question is required to satisfy legal reporting, notification, consultation and assessment obligations. In case of doubt, the duties shall be fulfilled jointly.

Requests from data subjects in connection with the exercise of data subject' rights may, in the case of data processing with joint controllers, be assigned to any controller. Requests must be processed and answered by the controller to which they are addressed, or they may be forwarded for processing and answering to the controller which is mainly concerned with the content of the request. That controller must ensure that the data subjects' rights are being complied with.

Your data will otherwise be transferred to third parties only if you have expressly consented in advance to your data being forwarded, if we have a legal obligation to transfer the data, if the data transfer is necessary for performing the contractual relationship or if there are sufficient legitimate interests for transferring the data. Your personal data will not be sold to third parties or otherwise marketed.

Facebook fan page

In the course of running a Facebook fan page, data is processed by joint controllers, i.e. by the respective company within our corporate group and by Facebook.

Information about data processing which is carried out in the course of running a Facebook fan page can be found [here](#). The [corresponding Data Processing Agreement](#) can also be viewed via this information page.

RECIPIENTS

Data may be transferred to subsequent recipients (groups of recipients), for example in the context of performing contracts or legal obligations or in the pursuit of legitimate interests. These are the data controllers or processors. For further details on recipients, please refer to the chapter on data controllers and processors and the following chapters.

- Legal counsel
- Courts and other public authorities
- Banks
- Credit agencies
- Betting offices/acceptance points and payment offices
- Other counterparties or business associates

- Title,
- Date of birth,
- Nationality,
- Contact address(es) (e.g. e-mail-addresses),

- Employer,
- Official photo ID data (e.g. personal ID card number, passport number, driving licence number, personal master data, ID card scan)
- Credit card number and data, bank details
- Cookies, IP addresses,
- Location data,
- Biometric data (photo),
- Visit and gaming data

- Income and/or financial circumstances, credit ratings, insolvency data.

Note: Not all of the examples shown here are processed by all companies of the Group.

COLLECTION AND PROCESSING OF PERSONAL DATA

We collect and process personal data only to the extent permitted by law. This is the case, for example, if you have given your consent to the processing of personal data concerning you for one or more specific purposes. The processing of your personal data may also be necessary for the performance of a contract or for the fulfilment of a legal obligation imposed on us.

We process your data if you have provided it voluntarily; for example, if you register for one of our online products or in a casino or VLT location, order something in the online shop or through our customer service centre, participate in a sweepstake or contact us by other means.

We use the personal data provided by you only to the extent that your data is necessary for the fulfilment of the specific purpose (e.g. for performance of a contract, fulfilment of

a legal obligation, registration for one of our online products, sending out newsletters, processing an order in the online shop, sending out information and advertising material, running a sweepstake, conducting customer analyses, market research and opinion polls, to answer a question you ask us, or to enable access to certain other information).

We collect and process your personal data for products and services of the Group, which you can use independently of one another.

[Commissioned data processing](#) or [data processing under joint controllers](#) by one or more companies of our corporate group is attributable, in particular, to its structure and segmentation into business units and corporate functions and is governed by contracts. In individual cases, due to legal obligations to which we are subject, data may be transferred to authorities.

SECURITY

We implement technical and organisational security measures to protect your data against manipulation, loss, destruction and access by third parties. Our security measures are constantly improved in line with technological developments.

We undergo annual certification in accordance with the GoodPriv@cy international data protection seal of quality, which assists us in reviewing our strict data protection policy and assists us in continually improving it.

All information we receive from you, such as your name, address, telephone number, e-mail address, account information or credit card number, is transmitted and protected between your browser and our central server via SSL (Secure Socket Layer). The security server software encrypts all information provided by you before it is transmitted to us. This prevents unauthorised persons from reading, modifying, interpreting or copying this information during data transfer and subsequently forwarding it.

GAME SECRECY

In addition to the general data protection regulations, our corporate group is subject, in particular, to the provisions of sec. 51 of the Gaming Act [GSpG], which deals with game secrecy. This provision specifies that organisers of games of chance which are covered by the gambling monopoly, the members of their constitutive bodies, employees, contractors and other persons working for such organisers are required to preserve confidentiality (game secrecy) regarding the identity of gamblers and their participation in games of chance (winnings and losses). Exceptions to game secrecy are exhaustively covered by this statutory provision and relate, for example, to duties of information to public authorities and courts or to express waivers of game secrecy by the gambler. Because the preservation of gambling secrecy is a prerequisite for maintaining the right to operate games of chance, we preserve strict confidentiality regarding your participation in such games and the winnings or losses generated.

GAMBLER PROTECTION

Based on the provisions of the Gaming Act, in certain cases we have a duty to record your conduct during visits and to observe your gambling behaviour and, where necessary, to initiate measures for your own protection.

For more information regarding gambler protection and responsible gambling, please visit www.spiele-mit-verantwortung.at.

CREDIT INFORMATION

In certain legally regulated cases, Casinos Austria and WINWIN are required to review your credit standing on the basis of documents, data or information obtained from a creditable and independent source. By carrying out these credit checks, we comply with the legal obligations imposed on us. In addition, the credit checks serve to protect gamblers and are thus in the interests of your own safety.

To carry out credit checks, we will transfer the personal data required (e.g. name, address, date of birth) to the following credit agencies:

Bisnode Austria Holding GmbH
Geiselbergstraße 17-19
1110 Vienna

CRIF GmbH
Diefenbachgasse 35-39
1150 Vienna

Kreditschutzverband 1870
Wagenseilgasse 7
1120 Vienna

These credit agencies use the personal data transmitted by us in order to make appropriate assessments of your credit rating, based on mathematical and statistical procedures (scoring).

In light of our legal mandate, we have a legitimate interest in obtaining information on insolvencies (personal bankruptcies and company insolvencies) in order to take necessary measures to protect gamblers. For this reason, based on a contractual relationship with Kreditschutzverband 1870, information on insolvencies (private bankruptcies and company insolvencies) is provided to us via an insolvency database.

ANTI-MONEY LAUNDERING

Based on the provisions of the Financial Markets Money Laundering Act [German acronym: FM-GwG] and the Gaming Act [GSpG], we have a duty throughout our corporate group to compare your personal data with the Dow Jones Risk and Compliance Database at www.dowjones.com/ if you register as a player with our online products, visit a Casinos Austria casino or a VLT location or draw winnings of a certain amount. In addition, in certain cases the FM-GwG provides for the collection of information on contracting relationships and on the origins of the funds used and on your income and financial position.

WHISTLEBLOWING SYSTEM

Our corporate group offers you the option, via <https://www.bkms-system.net/cal>, of using a whistleblowing system to report irregularities within our corporate group to top-level corporate management. As a corporate group, we have an overriding legitimate interest in learning of such irregularities. Communications between you and us are facilitated by an application service provider, enabling you to submit and us to receive, process and respond to notifications (which can be made either on an anonymous or a non-anonymous basis) using a special, secure server. Business Keeper AG ("**BKAG**") has developed this

whistleblowing system and works for us within the scope of the data protection requirements. Data processing by BKAG takes place exclusively on the territory of the Federal Republic of Germany. BKAG has no access whatsoever to the contents of messages exchanged through the whistleblowing system. The data and messages which are entered by the whistleblower are stored for purposes of processing only for so long as is necessary until processing of the whistleblowing notification is complete. Where, as a whistleblower, you have not entered any personal data, the whistleblowing system preserves your anonymity by means of appropriate technical and organisational measures. What this means is that whistleblowers may provide information without having to provide any personal identification details but at the same time have the option to provide information on a non-anonymous basis so that a reference to the individual may be established.

VIDEO SURVEILLANCE OF OUTDOOR AREAS OF BUILDINGS

Outdoor areas of buildings in which we operate to provide services are video-monitored and display notices to that effect. The purpose of the video-monitoring is to protect persons, such as our employees, our property and other company items and assets, and to support and safeguard working processes, such as processing deliveries, and other tasks performed in and around the building being monitored. The legal basis for this is, as a general principle, the legitimate interest in the protection of persons, property and rights. In individual cases, however, the legality of video monitoring may also derive from consent, or it may be necessary for the performance of a contract or the fulfilment of a legal obligation. These legal bases may, in individual cases, result in data being transferred to third parties, such as courts, authorities, insurance companies or victims of criminal offences. The duration of storage for video recordings is generally 72 hours. However, in individual cases, for example due to prejudice to our legitimate interests and enforcement of related legal claims, a longer duration of storage may be required.

VIDEO SURVEILLANCE AT CASINOS AND VLT LOCATIONS

In order to comply with legal requirements and for your own protection, the gambling operations at the casinos of Casinos Austria and the VLT locations of Austrian Lotteries are video-monitored in accordance with relevant data protection rules.

USE OF OUR WEBSITE AND APPS

In principle, it is possible to use our websites (casinos.at, shop.casinos.at, casinosaustriainternational.com, lotterien.at, win2day.at, tipp3.at, oeswe.at, bgs.at, winwin.at) and our apps (win2day: Casino, Lotto, Wetten, Lotteries Shaker, win2day Poker - Texas Holdem, Lotterien App, My Casinos Austria App, tipp3 App) without providing your personal data. However, different regulations may apply to the use of individual services, to which we shall refer separately.

When you visit our websites, information such as your IP address is sent to us. This information includes, for example, details of the end-user device being used (computer, smartphone, tablet, etc.), the browser being used (Internet Explorer, Safari, Firefox, etc), the time of access to our websites and the amount of data transferred. This information may be processed for system security reasons (to protect against misuse), to determine the attractiveness of our websites or to continuously improve their content for you.

When downloading apps, you need to enter the necessary personal authentication details in the app store (e.g. Apple App Store, Google Play Store). We have no influence over, or responsibility for, the data collected in the course of the download, in particular the e-mail address and customer number of your store account or the identification number of your

end-user device. We process the device information in the data provided only to the extent that this is necessary for downloading our apps to your device. It will not be processed further by us.

For more information, please see the section [‘Data processing when using our apps’](#).

LINKS TO OTHER SITES

Our websites contain links to other websites. Compliance with the relevant data protection rules for such websites is the responsibility of the operators of those websites and is therefore beyond our control. We therefore bear no responsibility for the privacy policies or content of those other websites.

INFORMATION AND MAILINGS

Consent on the basis of sec. 107 (1) Austrian Telecommunications Act [German Acronym: TKG] in conjunction with Art. 6 (1) (a) GDPR

You have the option of subscribing to various forms of newsletters and/or mailings from our corporate group.

Depending on the scope of your declaration of consent and the purpose of data processing included therein, we may process various personal data (if you have provided them) for use in advertising, specifically your name, title, date of birth, nationality, residential address, telephone number, fax number, user administration data, e-mail address, your casino visits and gambling data, as well as information regarding your interests (e.g. gambling offers, events, hobbies, leisure time, sports, cultural and culinary preferences, campaigns of which you may have taken advantage).

At such time as you provide your declaration of consent, you will be informed as to what personal data will be processed for what purpose in connection with making contact with us. If you have consented to receive information and mailings, then, depending on the scope of your declaration of consent, you may, for example, receive current news items and information regarding campaigns and special offers as well as services and sweepstakes from the respective group company.

For mailings and information circulars, your e-mail address, your postal address and your telephone number will be used if you have indicated these communication channels to us. In addition, you may receive information and mailings via our websites and apps in the form of push messages.

For more information on the option of withdrawing your consent, please see the section [‘Right to withdraw consent’](#).

Your data will only be shared with third parties to the extent this is necessary in order to perform mailing tasks.

Legitimate interest on the basis of sec. 107 (3) TKG in conjunction with Art. 6 (1) (f) GDPR

Where we receive your e-mail address in connection with a sale or service (e.g. when you register with us in connection with a casino visit, with your participation in an advantage club, or when setting up a user account on win2day), the company in question may, on the basis of the existing customer relationship and where there is a legitimate interest, forward direct advertising to you by e-mail (including text messages) in the form of information and mailings relating to that company’s own or similar products and services.

You may opt out at any time from such processing in connection with the collection of your contact data or each time the information is forwarded to you by e-mail ("unsubscribe / abmelden") or text message by sending an email to datenschutz@cal.at.

Legitimate interest of information in socially and politically relevant fields

In order to send you mailings with specialist information and invitations to events related to art and culture, Casinos Austria and its processors will process your personal data which have been transferred to us or which are publicly accessible, such as your title, name, home address and/or e-mail address. These mailings are sent on the basis and for the purpose of the legitimate interest of the corporate group in promoting art and culture as socially and politically relevant fields.

In order to send you up-to-date specialist information on Casinos Austria in the form of a newsletter, Casinos Austria and its processors process your personal data which have been transferred to us or which are publicly accessible, such as your title, name, home address and/or e-mail address. This information will be sent to interested persons and data subjects on the basis and for the purpose of the legitimate interest of the corporate group in passing on information about developments and events in the gambling sector as a socially relevant field.

PHOTO AND FILM RECORDINGS AT EVENTS AND TV SHOWS

It may be the case that photo and/or video recordings of you will be made and stored at Casinos Austria casinos, WINWIN VLT locations in connection with events, or during Austrian Lotteries TV shows.

Depending on whether you have given consent for this purpose to Casinos Austria or Austrian Lotteries, such recordings may be processed for purposes of marketing by Casinos Austria, WINWIN and/or Austrian Lotteries, for publication on their websites (www.casinos.at, www.lotterien.at, www.winwin.at) or on the local websites of Casinos Austria, for publication on the Facebook pages of those companies and for publication on Casino TV (Infotainment at the casino/on tv.Casino.at). In addition, depending on whether you have granted consent to Austrian Lotteries for this purpose, recordings made during TV shows may be processed for purposes of marketing in internal group media and potentially in third-party media (as described in your declaration of consent).

Such publication will not give rise to any claims on your part of any kind whatsoever.

For more information on the option of withdrawing your consent, please see the section '[Right to withdraw consent](#)'.

SWEEPSTAKES AND NON-CASH PRIZE RAFFLES

In the case of participation in sweepstakes or non-cash prize raffles, we will use your data collected for this purpose to process the sweepstakes game or non-cash prize raffle and/or the resulting contractual relationship, particularly in connection with the notification of winnings. Detailed information may be found in the respective terms and conditions. Where you have consented to this, we may process the data collected in connection with a sweepstakes game or non-cash prize raffle until such time as you revoke consent to receive mailings and information circulars.

For more information on the option of withdrawing your consent, please see the section '[Right to withdraw consent](#)'.

DATA PROCESSING WHEN USING OUR APPS

As a basic rule, we collect, process and use your data only on the basis of legitimate interests or your consent, and only so far as necessary for proper functioning of the apps or for conducting our own market and opinion research. We use tracking technologies to measure your usage behaviour.

For technical reasons, the apps automatically transmit certain technical data to our servers when you use our services, including, in particular, identifying characteristics, information on the beginning and end and the scope of the use in question and details regarding the services used by you in each case, for example the date and time of the use, the operating system used, the volume of data transmitted and configuration data. This is necessary due to the way our apps operate.

In addition, our apps use a token which is automatically generated when the app is first used. The token is a small text file (similar to a cookie) which is stored locally within the app and contains only a randomly generated identification number. The token serves as an identifier, allowing us to recognise your app installation in order to provide the required content to the app (for example, permitting us to send push messages to the app where you have given your consent). The token is stored on our servers and in a special area of the app to which only the app has access. The token will be erased after four years of inactivity, which means that our servers will no longer recognise your app installation.

DIGITAL SERVICES (FACEBOOK, CONVERSATIONAL INTERFACES, ETC.)

To use some of the offers and services of our corporate group, you must have an account on the Facebook social network, 1601 South California Avenue, Palo Alto, CA 94304, United States, or Amazon Media EU S.à r.l. (Société à responsabilité limitée), 5 Rue Plaetis, L-2338 Luxemburg. When you visit Facebook pages or use an Alexa device, a direct connection is made between your device and the Facebook server or Amazon server. As a result, Facebook or Amazon will receive the information that you have called up our Facebook page or, using the Amazon Alexa device, Casinos Austria or Skill Lotteries under your IP address. We would point out to you that we have no knowledge of the content of the data transmitted or its use by Facebook or Amazon. You can find further information on these points at

[Privacy statement of Facebook](#) and/or at

[Privacy statement of Amazon](#).

Content on external channels is created and extended with the utmost care. However, the degree of currency and correctness will be affected by technical factors such as the internet connection or the currency of the operating system you are using, and we are thus unable to guarantee it.

CASINOS AUSTRIA

Visiting a casino

If you visit a Casinos Austria casino, you are legally obliged to present an official photo ID for the purpose of establishing and verifying your identity and your age and of compliance with legal duties of care. For this purpose, the data from your official photo ID will be stored in Casino Austria's customer database on the occasion of your first visit. On each subsequent visit, the data will be recorded, compared and checked, or if you visit our casinos with different official photo IDs, data from those IDs will be stored also. In the course of this procedure, Casinos Austria will process your name, title, date of birth, nationality, and ID data (ID type, ID number, master data, scan). In addition, every time you visit a casino, an up-to-date photo will be taken of you for the purpose of verifying your identity and will be stored in the customer database. Within the scope of legal requirements, your visit and gaming data will also be recorded and processed.

"Glücks Card" "points & more" programme

By participating in Casino Austria's "Glücks Card" "points & more" programme, you have the opportunity to participate in the "Glücks Card" bonus programme. For the purpose of implementing the "Glücks Card" "points & more" programme, and for customer support purposes and active gambler protection, Casinos Austria will process your personal data, if available and/or provided, such as e-mail address(es), name, date of birth, nationality, address(es), telephone numbers(s), interests (cuisine, events, range of games), company, purchasing behaviour in the online shop, use of promotions/items consumed, participation in draws and sweepstakes, as well as your visit and gaming data at the casinos.

On the basis of sec. 107 of the Austrian Telecommunications Act [German acronym: TKG] in conjunction with Art. 6 (1) (b) and with (b) or (f) of the General Data Protection Regulation (GDPR), you will receive information and mailings from Casinos Austria. The basis for the information and mailings is therefore either your consent or Casino Austria's legitimate interest in delivering direct advertising in the form of information and mailings to customers by means of e-mail, SMS and post.

For more information on the options of withdrawing your consent and objecting to data processing, please see the sections ['Right to withdraw consent'](#) and ['Right to object'](#).

Within the framework of the "Glücks Card" "points & more" programme and the casino information and mailings, Casino Austria uses analysis software to calculate your bonuses and prepare and send you personalised direct advertising which is individually tailored to you. Our internal software is used to calculate your Glückscard points and status points.

For more information about this, please see the sections ['Mailings'](#) and ['Analysis software'](#). You can find the various advantages and participation conditions at www.glueckscard.at.

My Casinos Austria App

With the My Casinos Austria App from Casinos Austria, you may, as a non-registered user, access general information (e.g. opening times, casinos, events) and offers (e.g. information on sweepstakes and offers) from Casinos Austria. By registering with the App and giving your consent, you transfer your e-mail address and user administration data (password, user name - i.e. your e-mail address) to Casinos Austria for processing. IdentityID is used for processing, in order to protect the e-mail address. In addition, you may have your App account verified by Casinos Austria on your next visit to a casino by

presenting your official photo ID. The App will then be linked to your personal data from the "Glücks Card" "points & more" programme, if available and/or disclosed: e-mail address(es), name, date of birth, nationality, address(es), telephone numbers(s), interests (cuisine, events, range of games), company, purchasing behaviour in the online shop, use of promotions/items consumed, participation in draws and sweepstakes, as well as your visit and gaming data at the casinos. By connecting your App account with the "Glücks Card" "points & more" programme, all personal data referenced above will be processed by Casinos Austria, if you have provided them and have not withdrawn your consent. Casinos Austria uses analysis software, in order to display personalised content tailored individually to you and to send you advertising information. By registering as a user of the App, you agree to the participation conditions of the "Glücks Card" "points & more" programme and to data processing in accordance with the present Privacy Statement and with that of the App.

If we process personal data of yours which is incomplete or incorrect, you may request its rectification and/or completion by us at any time.

Right to erasure

You may request that we erase your personal data if we have unlawfully processed it, if the processing disproportionately interferes with your legitimate interests of protection, if your personal information is no longer necessary for the purposes for which it was collected, if you have withdrawn your consent and there is no other legal basis for processing or if erasure of the data is required to fulfil a legal obligation. Please note that there may be reasons which would militate against immediate erasure, e.g. in the case of legally mandated retention requirements.

Right to restriction of processing

You may ask us to restrict the processing of your data if

- you dispute the correctness of the data for a period of time that allows us to verify the accuracy of the data;

- the processing is carried out by means of automated procedures.

Right to withdraw consent

You may withdraw your consent to data processing under data protection law at any time with future effect by sending an e-mail to datenschutz@cal.at or to the e-mail address given in the declaration of consent, or by post, stating the company in question, to

Rennweg 44, 1038 Vienna. For mailings sent by e-mail, you may also withdraw your consent by using the 'abmelden / unsubscribe' link in any e-mail. Withdrawal of your consent shall not affect the lawfulness of processing based on your consent before its withdrawal.

This data processing is justified because the need to protect the health of those you may have come into contact with by rapidly alerting them to the risk outweighs your interest in preventing the disclosure of your contact details when you voluntarily attend an event.

If there is no need to pass on your data, we will erase them 28 days after the event.
